

Please Mr. President.

I'm a straight A student in the school of p.s.140. I love doing Math and Reading. I really don't like recess because every time I go out to recess I always get bullied and hurt. I love sleeping with my little sister because I read books before she goes to sleep. When I grow up I'm going to be a scientist just like my aunt. If I had one wish it would be not to have violence in this world and no guns. I am very afraid of snakes because I got bitten by one.

Love,
Delicelle
Sarcia
